# *Paper Presentation on:* "AI in EV"

## 1. Team Composition

- Each team may consist of **Maximum 2–3 students and Individual participation** is also allowed.
- Students may belong to the **same department or interdisciplinary teams** are also permitted.

## 2. Paper Format

Paper must be prepared in **IEEE (** https://www.ieee.org/content/dam/ieee-org/ieee/web/org/conferences/Conference-template-A4.doc )

- **Maximum Pages:** 4 to 5 pages.
- Paper should include:
  - Title
  - Abstract
  - Introduction
  - Literature Review
  - Methodology / Concept
  - Applications of AI in EV
  - Results / Discussion
  - Conclusion
  - References

## 3. Presentation Time

- **Presentation Time:** 6–10 minutes
- **Question & Answer Session:** 2–3 minutes

## 4. Presentation Method

- Presentation must be prepared using **PowerPoint (PPT)**.
- Maximum **8–10 slides** recommended.
- Slides should include:
  - Title Slide
  - Introduction
  - Problem Statement
  - AI Techniques used in EV
  - Case Study / Application

- Conclusion

## Topics for Paper Presentation:

1. AI for Electric Vehicle Range Prediction
2. Intelligent Motor control Using AI
3. AI based Regenerative Braking optimization
4. AI based Smart Charging system
5. AI based driver behaviour monitoring
6. AI for fault detection in EV
7. AI for Thermal safety in Lithium-ion batteries
8. AI optimization of power consumption in EV

**Note:**

- Students may select **any one topic from the above list** for their presentation.
- Each team must prepare a **technical paper and PowerPoint presentation** based on the selected topic.
- Presentations will be evaluated by the **judging panel**.
