

VAIBHAV 2K26

BUILDATHON 2026 - Hardware Hackathon & Innovation Challenge

Track 1: Prototype Proposal Challenge

GUIDELINES

- This competition is open to **college students from any recognized institution**.
- Teams must consist of **2–3 members**.
- **Inter-college teams are allowed**. Members of a team may belong to different colleges.
- **Inter-disciplinary teams are encouraged** (students from different branches can form a team).
- Each team must submit **one PPT proposal only**.
- The proposal must be **maximum 6 slides** and submitted in **PPT or PDF format**.
- Submissions will be evaluated based on **innovation, feasibility, technical clarity, and potential impact**.
- Selected teams will be **invited to the final offline Buildathon round** at JCET campus, Hubli.

RULES

- Plagiarism or copied project ideas will lead to **immediate disqualification**.
- Teams must ensure that the submitted idea is **their original concept**.
- Shortlisted teams must bring **all required components and tools** needed to build their prototype during the final round.
- The final Buildathon round will be a **6-hour hardware hackathon** where teams will build and demonstrate their working prototype.
- The decision of the **judges and organizing committee will be final**.

Note: **TEAM SIZE: 2 – 4 members per team - Inter-college teams are allowed.**
Members of a team may belong to different colleges.

REGISTRATION FEE: ₹250 per team (Payable only after shortlisting for the final round)

Student coordinators

1. Ms. Madiha Mannangi, ECE (8105669846)
2. Ms. Sinchana Kulkarni, ECE (9483270923)
3. Mr. Varun Raval, ECE (9380246979)

Staff Coordinators

1. Prof. Prabhudev Mallapur. (7083403465)

Track 2: Rapid Hardware Build Challenge

RULES & REGULATIONS

- "The project must be based on Arduino."
- Participants should build a unique, working model using the components provided by the coordinators.
- No extra components will be provided by the college, and participants should not bring their own components.
- Participants are not allowed to connect their laptops to the internet. No use of AI applications either from the laptop or mobile or any other devices.
- Participants should bring their own laptops and are allowed to copy and paste code.
- If there is any damage to the provided Arduino board (excluding other components), the participants must pay for it.
- A team can have a maximum of 3 members, or you can participate as a solo competitor.
- Credits will be given based on the uniqueness and modern efficiency of the model.
- The participation fees for the JCET students is free and for the other college students is Rs 250 per team.

Student coordinators

4. Mr. Md. Anas K, ME (8217589739)
5. Mr. Kishan B, ME (6362928359)

Staff Coordinators

2. Prof. Prabhudev Mallapur. (7083403465)
